

GU10 ACCESSORIES

FIRE RATED INSULATION CAP

A full range of spare springs, clips and a fire rated insulation cap, to complement our range of GU10 downlights.

Features

- Insulation cap, designed to:
- Meet the requirements of Parts L1 A / B of the Building Regulations
- Stop heat transfer into lofts or ceiling voids thereby reducing energy costs
- Permit downlight final fix after the insulation has been laid saving time & installation costs
- Allow insulation to maintain the resistance to passage of sound (Part E of the Building Regulations)
